

Hello. My name is Lester Suggs, the co-Founder of the non-profit organization J.O.B.H.F. (Just One Big Happy Family). J.O.B.H.F. was formed with one goal in mind: to meet the needs of people needing help. Some of those significant needs are homelessness, mental depression, alcoholism, and drug addiction.

Currently, one of the major concerns of this country is the return of our heroic troops from the Iraq War who now suffer from P.T.S.D. (Post Traumatic Stress Disorder). This is caused by violent personal offense such as sexual assault, physical attack, robbery, kidnapping and hostage situations in military combat, terrorist attacks, torture, incarceration as a prisoner of war or in a concentration camp, in natural or man-made disasters, severe automobile accidents, and being diagnosed with life-threatening illness. J.O.B.H.F. will focus on helping this particular group because we are reaching out to the mentally depressed.

J.O.B.H.F. is an organization that is willing to deal with and help our country's new wave of illnesses. Let us give the homeless a home, the mentally depressed some rest, show drug addicts and alcoholics that they are not failures just because they fell victim to the "spirits" of this world.

I am making a petition to your heart and to your pockets.

Please help this organization with any donation that you can afford to help support and save a life from homelessness, depression and abuse.

Make your check payable to **J.O.B.H.F.** and send to the following address:

**J.O.B.H.F.
PO Box 191
Liberty Corner, NJ 07938-0191**

God Bless you and thank you for your support,

Lester Suggs
